STUDY OF FLOW	3
<i>STUDY OF FLOW</i>	4

STUDY OF FLOW

- pathway , way , diverging pathways , converging pathways
- loop , circular loop
- bidirectional flow , unidirectional flow , multi directional flow
- [verse](#) , universe , multiverse , diverse , converse
- [exchange](#)
- Those things which employ themselves
 - OPERATION, Labor-ious, Pains, Travail, Toil, moil, Turmoile, drudg, droil, work, handy-work, Ply, cooperate, take pains, [lay](#) about [him](#).

PLAY, Sport, lusory, dally.

- [Arrow \(temporal frame or path \)](#)
- [2d energy or 2d arrows](#)
- [2D arrow , biaxial arrows](#)
- [planar movements](#)
- ACTION
- [numbered actions](#)
- [shaped actions](#)
- Concerning the [study of direction](#)
 - vectors
- Concerning the study of reason , why , how
 - logic
- Concerning the [study of origins or causes](#)
 - etiology , etymology , causality
 - creation myth , origin myth
- reason or [an](#) explanation for something as a function of its end, its purpose, or its goal, as opposed to as a function of its cause
 - Teleology , finality , consequentialism , effects , goal , purpose
- Concerning the [Study of the flow of energy](#)
 - [study of functions](#) , physiology , pathophysiology , biochemical physiology
 - [study of actions](#) , dynamics , thermodynamics , psychodynamics , electrodynamics , pharmacodynamics
 - [study of motions](#) , kinematics , kinetic energy , pharmacokinetics , chemokinesis
 - [Study of arts](#)
 - [natural energy flow study](#)
 - [artificial energy flow study](#)
- Concerning [Time flow study](#) , chronology
- Concerning the [study of interactions](#)
- Concerning the study of agriculture
 - [agricultural operation](#)
- Concerning the study of mechanical operations
 - [mixed mechanical operation](#)
 - [Simple mechanical operation](#)
- Concerning the study of Fabrile operations
 - [fabrile operations](#)
- Concerning the study of clothing

- [clothing operations](#)
- concerning the study of Physic, CHYMICAL, Pharmaceutical Operations
 - [pharmaceutical operations](#)
- Concerning the study of Surgical and Therapeutic Operations
 - [Surgical Operation](#)
- Concerning the study of Biochemical operations
 - [Biochemical operations or process](#)
- Concerning the study of simple arithmetic operations
 - [arithmetic operations](#)
- Concerning the changes in shapes and forms
 - [geometrical operations](#)
- Concerning the flow of matter
 - [Materialistic flow](#)

STUDY OF FLOW

- functions , actions , process and motion
- ACTION, doe, perform, commit, practise, proceeding, function, exercise, at|chieve, dealing, Act, Fact, Deed, Feat, Exploit, [Passage](#), Prank, Trick, play the Part.
- [Action](#) : The act of doing something (e.g., opening a [door](#)). It's the most basic unit of doing. It's the specific instance of something happening.
- [Art](#) : The use of skill and creativity to express ideas or emotions (e.g., painting, sculpture). Art is subjective and open to interpretation.
- Event: A single occurrence or happening at a specific [time](#). It's a specific moment in [time](#).(e.g., the winning touchdown).
- [Function](#) : The specific purpose or job something is designed to [do](#). It's the what something does. (e.g., the function of a car engine is to power the vehicle).
- [study of Laws](#) : A fundamental principle that describes a relationship between things and is generally considered unchanging (e.g., the law of gravity).
- [Mechanism](#) : The internal workings or parts that cause something to function. It's the how something works internally. (e.g., the locking mechanism of a [door](#)).
- [Method](#) : A systematic approach to achieve a specific goal (e.g., the scientific method).
- [Motion](#) : The act of changing position over [time](#). It's the how something moves. (e.g., the motion of the planets around the [sun](#)).
- [Operation](#) : The act of performing a task or using something (e.g., the operation of a computer program).
- Phenomena (plural phenomenon): Observable events, experiences, or things that happen (e.g., natural phenomena like lightning strikes).
- Process: A series of steps that lead to a specific outcome. It's the ongoing sequence of events. (e.g., the process of photosynthesis).
- Rule: A specific guideline that dictates what is allowed or not (e.g., traffic rules). Rules can [be](#) more flexible than laws.
- Technique: A specific way of performing [an action](#), often involving skill and practice (e.g., the proper pitching technique in baseball).
- [arrow symbol](#)
- [wheel symbol](#)
- [windle symbol](#)
- [comparate actions](#)

- [Business actions](#)
- [Numbered actions](#)
- [Commerce actions](#)

- [definite actions](#)
- [Exchange](#)
- [TRANSCENDENTAL ACTIONS](#)
- [RELATION OF ACTION. III](#)
- [COMPARATE ACTIONS](#)
