OUTLINE OF PATHOLOGY .....	3
----------------------------	---

# OUTLINE OF PATHOLOGY

- Accidental start of disease
  - Congenital , Accidental inheritance
    - **Genetic disorders**
      - hereditary disorders
    - **Developmental disorders**
      - Developmental disabilities
    - **Birth defects**
  - Accidentally Acquired
    - **non communicable disease**
      - Etiological or disease causative conditions
    - **Communicable diseases**
      - Infections
  - systemic pathology
    - **cutaneous conditions**
  - More complicated
    - interaction between mother and fetus
    - **Sexual Defects**
      - maternal defects
      - paternal defects
      - Defective conception
  - Host of disease
    - either **male or female**
      - infant
      - **child**
      - adult
      - old **person**
- Progression of disease , natural history , history of disease
  - **pathological sequela**
  - period of **Time**
    - Acute disease
    - Chronic disease
  - Spread
    - Localized , benign
    - Systemic ,
    - Disseminated , malignant , dangerous
  - changes in host
    - Subclinical
    - Visibility , diagnosis , appearance of signs and symptoms
      - **Clinical , symptomatology** , accidental signs
- Leading to , prognosis
  - Accidental **Death** , Normal **death**
  - Impairment , handicap , amputation , disability
  - Recovery , cured
- Stop of disease
  - Management and prevention
- End of disease , Accidental intervention
  - Treatment or cure

INHERITED OR INBORN	Genetic disorders . hereditary disorders . Developmental disorders . Developmental disabilities . Birth defects
ACQUIRED PATHOLOGY	Physical pathologies . Electrical Conditions . Biomolecular or Chemical Conditions . Cancer or tumour . Sensitive pathologies . Degenerative conditions . Cellular pathology
structural pathology	road narrowing ( <a href="#">tubular narrowing</a> ) . road widening ( <a href="#">tubular dilatations</a> ) . road block ( <a href="#">tubular block</a> ) . abnormal road connections ( <a href="#">tubular misconnections</a> ) . road blind ends ( <a href="#">blind tubes</a> ) . road breaks ( <a href="#">tubular breaks or leaks</a> ) . <a href="#">Organomegaly</a> . framework breaks ( <a href="#">fracture</a> ) . increased framework size ( <a href="#">gigantism</a> . <a href="#">Acromegaly</a> ) . decreased framework size ( <a href="#">cretinism</a> . <a href="#">dwarfism</a> ) .
physiological pathology	Reverse traffic ( <a href="#">emesis</a> . <a href="#">reflux</a> . <a href="#">Regurgitation</a> ) . traffic intermixing ( <a href="#">shunt</a> )
Anatomian land traffic types	<a href="#">air traffic</a> , <a href="#">food traffic</a> and <a href="#">water traffic</a>
Microbiology ( national war)	<ul style="list-style-type: none"><li>•</li><li>• Bodyland aliens ( <a href="#">bacteria</a> , <a href="#">virus</a> . <a href="#">fungi</a> . <a href="#">parasites</a> )</li><li>•</li><li>• Bodyland Invasion ( <a href="#">cell enemy</a> ( <a href="#">foreign object</a> ) . criminals ( <a href="#">bacteria</a> , <a href="#">virus</a> , <a href="#">fungi</a> , <a href="#">parasites</a> ) . <a href="#">cell fights</a> . <a href="#">cell weapons</a> . <a href="#">cell death</a> . society destruction ( <a href="#">infection</a> ) . alien reclamation ( alien <a href="#">flag hoisting</a>) .)</li><li>•</li><li>• Bodyland routes of invasion ( <a href="#">Routes of Transmission</a> )</li><li>•</li><li>• <a href="#">Tumours</a></li><li>•</li><li>• <a href="#">Autoimmunity</a></li><li>•</li><li>• <a href="#">Biochemical accumulations</a> . <a href="#">Storage disorders</a> . <a href="#">Nutritional disorders</a> . <a href="#">Metabolic disorders</a></li><li>•</li><li>• <a href="#">Autoimmunity</a></li><li>•</li><li>• <a href="#">Air accumulations</a><ul style="list-style-type: none"><li>◦ pneumothorax , pneumomediastinum , <a href="#">air embolism</a> , pneumoperitoneum</li></ul></li><li>•</li><li>• Fluid accumulations<ul style="list-style-type: none"><li>◦ empyema , embolism , thrombosis , oedema , <a href="#">शोफ</a> , स्फाय</li></ul></li><li>•</li><li>• Stones , calculi , bile stones , <a href="#">kidney stone</a> , salivary calculi</li><li>•</li><li>• cysts</li></ul>
Autopathologies	
Biochemical disorders	
Accumulations
