Mantropedia is a free, multilingual online encyclopedia written and maintained by a community of volunteer contributors through a model of open collaboration, using a wiki-based editing system. Mantropedia was launched on January 8, 2021 its [name](#) is derived as a portmanteau of “Mantra” and “encyclopedia”. Mantropedia constitutes the [language](#) called [mantrakshar](#) (मंत्राक्षर) invented in 2017.

This project was started as [an](#) aim to promote the use of visual [language](#) in culture and Science. Many people believe in god but if we say god does not exist then that would [be](#) a disgrace to the creator who creates a work thinking that it might [help](#) his people. God are of many kinds some people think “[work is worship](#)” and some people think “[cleanliness is next to godliness](#)” and some people think “[god is everywhere](#)” and some people think “[God is the most powerful being](#)” and some people think “[god is the most intelligent being in the whole universe](#)”, where this might [be](#) correct but infact none of us have seen any god and hence people start thinking we believe only what we see and if that was true the whole history might become a conspiracy theory. This is not about what i think , it's all about what we think about it.

Even though I [do](#) not believe in god , but he personally believes that god is a source of inspiration and every [person](#) should [create](#) his own idol so that he would worship [him](#) as his god and his inspiration will surely lead [him](#) to his right [path](#). He devotes all his [life](#) work to Lord shiva as Lord shiva is the “lord of dance” and “god of war” and from lord shiva all his imagination started the first logogram which is the sacred syllable “[OM](#)”.
