Table of Contents

2D PROCESS ARROWS

- spatio-temporal actions concerning dimensions of motion
  - hole based operations
  - door based operations
  - passage or pipe based operations
  - window based operations

- 2D Motion types
  - in normal space as medium
    - 2D window events or process
    - 2D door events
    - 2D Floor events
    - 2D roof function
    - 2D hole or gaseous hole
  - in water medium
    - submerge , drown
    - surface tension
    - water pressure
    - water flow
  - in Solid medium
- 2D Container events
  - water container
    - leakage , ooze ,
    - fill
    - pour
    - over fill
  - gas container
  - solid containers
