HORMONES 3

HORMONES

HORMONE	ABBR	TYPE	IDEOPHONETIC	ANALOGY	DERIVED FROM
Adrenaline (or epinephrine)	EPI	Amino acid derivative			
Melatonin	MT	Amino acid derivative			
Noradrenaline (or norepinephrine)	NE	Amino acid derivative			
Triiodothyronine	T3	Amino acid derivative			
Thyroxine	T4	Amino acid derivative			
Dopamine	DA	Amino acid derivative			
Prostaglandins	PG	Eicosanoid			
Leukotrienes	LT	Eicosanoid			
Prostacyclin	PGI2	Eicosanoid			
Thromboxane	TXA2	Eicosanoid			
Amylin (or Islet Amyloid Polypeptide)	IAPP	Peptide			
Anti-Müllerian hormone(or Müllerian-inhibiting factor/hormone)	AMH □or MIF or MIH)	Peptide			
Adiponectin	Acrp30	Peptide			
Adrenocorticotrophic hormone (or corticotropin)	ACTH	Peptide			
Angiotensinogen and Angiotensin	AGT	Peptide			
Antidiuretic hormone (or vasopressin, arginine vasopressin)	ADH	Peptide			
Atrial natriuretic peptide (or atriopeptin)	ANP	Peptide			
Brain natriuretic peptide	BNP	Peptide			
Calcitonin	CT	Peptide			
Cholecystokinin	CCK	Peptide			
Corticotropin-releasing hormone	CRH	Peptide			
Cortistatin	CORT	Peptide			
Enkephalin		Peptide			
Endothelin		Peptide			
Erythropoietin	EPO	Peptide			
Follicle-stimulating hormone	FSH	Peptide			
Galanin	GAL	Peptide			
Gastric inhibitory polypeptide	GIP	Peptide			
Gastrin	GAS	Peptide			
Ghrelin		Peptide			
Glucagon	GCG	Peptide			

HORMONE	ABBR	TYPE	IDEOPHONETIC	ANALOGY	DERIVED FROM
Gonadotropin-releasing hormone	GnRH	Peptide			
Growth hormone-releasing hormone	GHRH	Peptide			
Hepcidin	HAMP	Peptide			
Human chorionic gonadotropin	hCG	Peptide			
Human placental lactogen	HPL	Peptide			
Growth hormone	GH or hGH	Peptide			
Inhibin		Peptide			
Insulin	INS	Peptide			
Insulin-like growth factor (or somatomedin)	IGF	Peptide			
Leptin	LEP	Peptide			
Lipotropin	LPH	Peptide			
Luteinizing hormone	LH	Peptide			
Melanocyte stimulating hormone	MSH or α -MSH	Peptide			
Motilin	MLN	Peptide			
Orexin		Peptide			
Osteocalcin	OCN	Peptide			
Oxytocin (or pitocin)	OXT	Peptide			
Pancreatic polypeptide		Peptide			
Parathyroid hormone	PTH	Peptide			
Pituitary adenylate cyclase-activating peptide	PACAP	Peptide			
Prolactin (or leuteotropic hormone)	PRL	Peptide			
Prolactin-releasing hormone	PRLH	Peptide			
Relaxin	RLN	Peptide			
Renin		Peptide			
Secretin	SCT	Peptide			
Somatostatin	GHIH or GHRH or SRIF or SRIH	Peptide			
Thrombopoietin	TPO	Peptide			
Thyroid-stimulating hormone (or thyrotropin)	TSH	Peptide			
Thyrotropin-releasing hormone	TRH	Peptide			
Vasoactive intestinal peptide	VIP	Peptide			
Guanylin	GN	Peptide			
Uroguanylin	UGN	Peptide			
HORMONE	TYPE		IDEOPHONETIC	ANALOGY	DERIVED FROM
Testosterone	androgen				
Dehydroepiandrosterone	androgen				

HORMONE	TYPE	IDEOPHONETIC	ANALOGY	DERIVED FROM
Androstenedione	androgen			
Dihydrotestosterone	androgen			
Aldosterone	mineralocorticoid			
Estradiol	estrogen			
Estrone	estrogen			
Estriol	estrogen			
Cortisol	glucocorticoid			
Progesterone	progestogen			
Calcitriol	secosteroid (1,25-dihydroxyvitamin D3)			
Calcidiol	secosteroid (25-hydroxyvitamin D3)
