GOD AND TIME

- I is the only thing in this world that will never remain constant except for god , as we believe it.
- I am [time](#) , it indicates that god is [time](#) or the so called [time](#) itself.
- I am [death](#) , it indicates that god is [death](#) or the so called [death](#) itself. But if I become [death](#) , how can I become [life](#) that is because [life](#) and [death](#) cannot co-exist.

POSSESSIVE

It is long said that man brings nothing in to this world and takes nothing from the world while going to

We as persons we need to communicate with each other so we need **pronouns** , and to distinguish an object from other **object** we need **nouns** , to distinguish one **person** from another **person** we need **names**. So this is in fact true

• Msingular	dual	plural
colour My black person , white person	two white persons	White people / race
Face If you imagine that I am God , then u will be left with nothing except I. but if u imagine MY god it indicates that u possess a person named God either as you or anywhere else	Two Irish , Chinese	Chinese people , Irish people
Eyes Irish person , Chinese	Two Irish , Chinese	Chinese people , Irish people
Height		

- According to Hindu mythology there is a consciousness which is above our own which is called as Brahman
- People are usually classified based on color white , black , blue , yellow ,red , brown , orange.
- People can also **be** classified on the basis of their **face** shape and its similarities to animals

THIRD PERSON PRONOUNS

- People can also **be** classified on the basis of their **eye** shape and color
- People can also **be** classified on the basis of **muscle** and **weight** , strong , weak , fat , thin , average
- People can also **be** classified based on height , tall , short .
- People can also **be** classified based on hairs , blonde , brunette , red head , black ,
- People can also **be** classified based on sex **male** , **female** , intersex
- Historical kings can **be** classified based on their characteristics of **crown**

Animals

Because animals cannot communicate with each other and they communicate only with sounds they **do** not need **pronouns**. But animals have groups and they have specific names for their kids and families.

THIRD PERSON PLACE PRONOUNS

Citizenship is given based on birth and **time** a **person** has **been** on that **place**.
